

Tatsiana Nelipovich

 Warsaw, Poland |  tatyana.nelipovich@gmail.com |  [Tatyana Nelipovich](#) |  [tanyushanel](#)

TECHNICAL SKILLS

Languages: *JavaScript, TypeScript, HTML, CSS, SCSS, Python*

Frameworks: *React (Next.js), Angular 2+, Express.js, CI/CD*

Developer Tools: *AzureCloud Infrastructure, Kubernetes, Synapse, Git (GitHub, GitLab, BitBucket, Azure DevOps), Docker, VSCode, Postman, Swagger, Miro, Figma, ChatGPT4*

Libraries: *Redux, RTKQuery, RxJS, MaterialUI, HeadlessUI, TailwindCSS, Jasmine, React Test Library*

EXPERIENCE

Company: [IBAGroup](#)

01.2024 – now

Position: Fullstack developer

Company: [Exadel](#)

09.2021 – 06.2023

Position: Frontend developer

Company: [EPAM](#)

09.2019 – 01.2020

Position: manual QA, Frontend trainee

PROJECTS

[FASTLAKE](#) | *React, RTKQuery, Redux, Typescript, Sass, Python, Kubernetes, AzureCloud*

Description: a robust platform for deployment of data lakes with resource transformation capabilities, management and analytics. Built primarily on Azure (including Kubernetes, Synapse, Airflow, Airbyte, Superset, Postgres, Storage, etc.), with plans for future multi-cloud support.

Activity: Engineered resource creation and transformation mechanisms using Azure's suite of cloud services. Designed and implemented scalable service addition functionality to support dynamic resource integration. Developed front-end interfaces using React and Material-UI to ensure intuitive and responsive user interactions. Implemented back-end logic for managing and transforming resources using serverless functions and Azure services.

LMS | *React, RTKQuery, Tailwind CSS, Headless UI, ReactTestLib, REST API, Postman, GitLab*

Description: a web app for tracking and managing employee's growth during assessments, integrated into a corporate platform

Activity: developed UI components, unit-tests, collaborated with a team running Scrum, reviewed code of teammates

PortMoney | *Angular12, HTML, SCSS, MaterialUI, GitHub, REST API*

Description: a web app for tracking and managing employee's bonuses and coins, integrated into a corporate platform

Activity: collaborated with a team running Scrum, developed UI components

ELevel | *Angular, HTML, SCSS, MaterialUI, Postman, Swagger, Figma*

Description: a web app - comprehensive language level test, integrated into corporate platform

Activity: collaborated with a team running Scrum, contributed in application design and interface development, developed UI components/features, integrated front with backend RestAPI

PlaceBook | *Angular, HTML, SCSS, Moment.js, MaterialUI, REST API, Miro, adaptive design*

Description: a system for booking places for remote working employees

Activity: collaborated with a team running Scrum, developed UI components, discovered a valuable library, later on it was accepted by customers for use.

EDUCATION

Bachelor in Computer Science at Grodno State University

SUMMARY

I'm a highly motivated and versatile Front-End Developer with 5 years experience in developing web applications. Eager to

apply proven coding skills and design expertise to create user-friendly and responsive solutions. Skilled in HTML, CSS, JavaScript, TypeScript, and proficient in using React/Angular, Redux, RTK Query, RxJS, Material-UI, and other modern libraries and frameworks.

I have been working as a Full-Stack Engineer for the past 1+ year, focusing primarily on the Python backend and React+Redux frontend.
